

## What's involved

### **100 minutes** of high quality online video

Inductees watch 10 high quality videos on our online resource centre, each approximately 10 minutes in length. Additionally, we provide a case study of Pole 1 of the HVDC.

### **12 months** access to the Online Resource Centre

They retain access to the online resource centre materials for 12 months so they can review the videos any time they want.

**Don't just take our word for it, see for yourself. Go online to [whiteboardenergy.co.nz](http://whiteboardenergy.co.nz) and view our online induction sampler.**

## Cost

**\$150 + gst**

or \$95 per head if 20 inductions or more are pre-purchased.

Materials can be branded and customised if required for an additional fee.

## Whiteboard's full range of training services

Cost effective, yet comprehensive online industry inductions.

Industry leading in-class and online courses to meet individuals professional development goals – for those wanting to move into management and senior roles by building a deeper knowledge of the market dynamics to aid commercial decision making and critical thinking.

Bespoke executive level courses for senior level managers and strategists – for those who require greater understanding of the critical issues they need to tackle, how to deal with competing tensions, and how their strategic decisions will impact on the whole electricity supply chain.
